THE RANCH MALIBU

Unplug from your busy daily life and recalibrate the mind and body through an "off-the-grid," weeklong fitness program in Malibu, California. Set on a historic working ranch three miles above the Pacific Ocean, The Ranch Malibu spans 200 acres in the Santa Monica Mountains and provides the perfect setting to calm the mind, return to nature and focus on your health and wellness goals. Guests are in a sequestered environment with no cell and limited wi-fi service available to further aid in a mental detoxification.

7-DAY SIGNATURE STAY

Upon completion of the program guests feel both physically and mentally transformed, logging over 60 miles of hiking, shedding unwanted pounds and inches, emanating a vibrant, healthy glow and regaining mental clarity and peace of mind. A weekly garden tour, cooking class and a full list of recipes are offered along with nutritional and fitness guidance from The Ranch experts, that continues after departure, to support guests in sustaining the benefits of their stay.

" With the help and encouragement of the staff and other guests, I was able to push myself past my comfort zone and achieve more than I ever thought possible. I left with a whole new outlook on diet and fitness that I know I will carry with me for life. "

- L.G.

**WOMEN AND MEN ROUTINELY LOSE 3%-6% OF THEIR BODY WEIGHT
ALONG WITH SUBSTANTIAL INCHES OF FAT LOSS AND MUSCLE GAIN, IMPROVED
CHOLESTEROL LEVELS, BALANCED IMMUNE SYSTEMS AND MENTAL CLARITY.**

NESTLED IN NATURE WITH NO DISTRACTIONS

The sprawling grounds are designed to be rustic, yet refined and feature an open-air kitchen and great room, certified organic garden, pool and jacuzzi and massage "village." Guests can also enjoy more unique health services and treatments, including cholesterol testing, Bod Pod body composition analysis, IV Therapy, chiropractic treatments, a weekly sound bath, a cold plunge pool and infrared and cryotherapy saunas.

Afternoon classes and yoga are held in The Barn fitness center. This new 3,000 square foot building allows each guest to have a personal fitness area within the larger training space, complete with their own yoga mat, weight set, BOSU ball, TRX strap and other accessories. An additional room was also created for spin bikes, treadmills, weight training machines and other equipment, including a 25 foot climbing wall.

Following the invigorating daily schedule, guests retreat to one of 21 private cottages, each beautifully decorated with reclaimed wood floors, limestone bathrooms, and linen-covered queen and king-sized beds. Guests can also choose to share a room with their partner, son/daughter or friend in rooms featuring one king bed or two queen beds.

" My visit to The Ranch couldn't have been better timed. I have been incredibly stressed, lacking sleep, not eating the healthiest of foods, and not much in terms of exercise was really starting to effect my body. The Ranch showed me just how important it is to take more than a day or two for me – something I hadn't previously done in at least a decade. I lost 8 lbs and 2 inches off of my waist at The Ranch. Equally satisfying is I have integrated exercise every day or every other day since my return. "

- W.H.

While our Ranch program is traditionally limited to 25 guests each session, The Ranch Private allows two groups of up to four guests (must be coming together) the opportunity to craft their own experience separate from the larger group. This immersive, weeklong health program is ideal for those who wish to escape to nature and experience the lasting results of our award-winning program, while having a personalized approach that is distant from the other guests on property.

This program is individually tailored to address those with specific concerns or desires that limit participation in our group-based programs. The Ranch Private can also be designed for those advanced athletes that are always asking for even more of a challenge. You can hike longer and run more miles. We can also happily increase the intensity of our afternoon fitness classes.

PERSONALIZED WELLNESS IN A HIGHLY INDIVIDUALIZED FORMAT

Working with you/your group, our team will design a program that meets your personal health and fitness goals. Upon completion, you'll feel both physically and mentally transformed, logging miles of hiking, losing weight and inches, emanating a vibrant, healthy glow and regaining mental clarity and peace of mind.

RESULTS TAILORED TO YOUR GOALS

PRIVATE RETREAT IN A NATURAL SETTING

With the sprawling grounds of The Ranch Malibu as your home for the week, Ranch Private guests will have their schedules choreographed to enjoy our certified organic garden, pool and jacuzzi, private training room, massage "village," and open-air kitchen and great room, separate from the other guests. Additionally, our team can ensure you have secluded spaces for meals and fitness classes should you wish to avoid the common areas.

"The beauty of the Ranch Private experience was that I could moderate how much social time I wanted by eating meals in my room or with the group as well as working out solo for the hikes but with the group for yoga. This enabled me to have plenty of quiet, contemplation time as well as interesting interaction with other guests."
- S.B.

A complete immersion at our Malibu retreat, The Ranch 9.0 gives you the opportunity to calm the mind, reset your health and achieve incredible results with 9 days in our award-winning, no-options wellness program. By adding two additional days to our signature weeklong program, you'll jumpstart your stay, re-enter with ease and maximize results.

Arrive at our secluded Malibu location on Saturday, where you'll receive diagnostic testing, an afternoon fitness class, yoga and dinner. Sunday kicks off with breakfast, followed by a 4-hour morning hike, lunch and massage before joining the weeklong program that afternoon.

THE ULTIMATE HEALTH IMMERSION, ENJOY 9 DECISION-FREE DAYS OF OUR TRANSFORMATIVE FITNESS AND WELLNESS PROGRAM.

Sequestered from the demands of daily life, for the next week you'll participate in an active daily schedule with up to 24 other guests consisting of 6 hours of low impact exercise. The program is designed to allow guests to connect with nature's healing elements along with experiencing more unique modalities including a mid-week 60-minute sound bath.

**WITH 7 FULL HIKES, FITNESS & YOGA CLASSES AND DAILY MESSAGES,
EXPECT TO MAXIMIZE YOUR RESULTS.**

The intense physical regimen is complemented by a 1,400 calorie/day organic, plant-based diet. Guests also enjoy a weekly cooking class and tour of our onsite, certified organic garden. Pre- and post-program cholesterol testing and body composition analysis are also offered along with chiropractic treatments, cryotherapy and IV Therapy, to enhance your results.

9.0 guests also receive the added benefit of an additional night's stay at the end of the week on Saturday night to ease re-entry into everyday life. Your extra day will include a 4-hour morning hike – to make 7 in total during your stay – afternoon massage, fitness class, yoga and dinner before your departure on Sunday.

For those that prefer a more personalized approach that is separate from the larger group, The Ranch 9.0 can also be experienced as a private program for groups of 1-4 guests, traveling together, with personal guided hikes, and classes and meals in spaces dedicated just for you and your group.

Our rigorous daily program is complemented by a nutritionally-dense, plant-based diet that is a highlight for guests and a key component of our results-driven approach. Using ingredients sourced from our onsite certified organic garden or nearby local farms, research and care has been strategically stirred, sous-vide-d and baked into every nutritionally balanced bite.

Designed to sustain you throughout the demanding program, the 1,400 calorie daily diet features the finest fruits, vegetables, grains, pulses, legumes and seeds, while excluding alcohol, caffeine, dairy, soy, processed sugars, diet sweeteners and gluten to aid in the cleansing and revitalization process.

Meals are enjoyed in a communal setting. Malibu features multiple indoor and outdoor dining spaces including an outdoor garden cafe and post-hike lunches on the beach. In Italy, meals are also done as a group, in a private dining room overlooking the mountains and ancient hilltop town of Fiuggi.

Mealtimes are used as an opportunity to discuss and educate guests on the tools for maintaining the healthy habits learned from their stay. We are able to accommodate most allergies and the calorie count can also be adjusted for those guests not looking to lose weight with larger portions and more snacks.

*“ While I really enjoyed everything, I have to say the food was beyond delicious
– tasty, healthy and filled with passion - and I was never hungry! ”*

RESULTS

Whichever program you choose, you'll have the opportunity to determine where you are on the road to balanced and healthy living and gain the knowledge and tools to make sustainable, healthy choices. Often guests continue seeing results upon returning home, with many having made long lasting, impactful changes that were prompted by a stay with us. They break habits that have been ingrained for years such as poor food choices, lack of exercise, excessive drinking and even smoking cessation. Medical improvement in cholesterol levels; higher HDL and lower LDL levels have also been noted.

For those guests not looking to lose weight, they will still benefit from the mental clarity and an overall feeling of renewal that comes with our program. We can also accommodate their needs with larger portions and additional in-room food.

OUR HEALTH & SAFETY PROTOCOLS

- The Ranch Malibu spans 200 acres in the Santa Monica Mountains and offers a small group setting, spacious grounds and open-air common areas.
- Ranch Protection Kits are provided for each guest which include a travel mask, Ranch bandana and hand sanitizer.
- A Molekule air purifier, which uses UV technology, is also used in our Buddha Barn.
- All massage cottages are equipped with Molekule air purifiers and housekeeping is sanitizing the room after each guest.
- Indoor and outdoor dining spaces, including our outdoor garden cafe, are offered to allow for greater space for guests.
- While we have always been sticklers for cleanliness, we have adopted additional cleaning standards and also adhering to the CDC recommendations.
- Should a guest prefer to maintain a 100% Private Room and opt-out of having anyone enter their room, including daily housekeeping during their visit, we have laundry bags that can be left outside your room to be picked up daily.
